Malerkotla, Punjab
72%

DAV Cent Senior Secondary Public School, 10th / SSC
Mar 2015 – Mar 2016
Malerkotla, Punjab
CGPA 8.8

📁 EXPERIENCE

Frontend Developer, *NJ Graphica*

Nov 2025 – Aug 2026 | Punjab

- Built responsive client websites and admin dashboards using React.js, Next.js, and Tailwind CSS from Figma designs.
- Improved SEO and performance using semantic HTML, meta tags, and optimized website structure.
- Added smooth Framer Motion animations to improve website interactions and user experience.
- Built reusable components, managed deployments, and maintained clean code through peer reviews.

Frontend Developer, *Appoctet Technologies Pvt. Ltd.*

Jun 2024 – Oct 2025 | Mumbai

- Built UI for a multi-vendor store admin panel and integrated REST APIs using Redux for state management.
- Created reusable components to maintain consistent UI and reduce duplicate code.
- Improved page performance by reducing unnecessary re-renders and optimizing component loading.

📁 PROJECTS

Market Your Daycare, *marketyourdaycare.com*

- Next.js, Tailwind CSS3, JavaScript
- Developed the frontend for a marketing website with internal CRM using Next.js, HTML, CSS, and JavaScript with custom UI components, and responsive layouts.

Edufant, *edufant.in*

- Next.js, JavaScript, Tailwind CSS, REST APIs
- JEE college prediction platform — rank-based predictions, college/cutoff browsing, JoSAA integration with debounced API calls, and an admin dashboard with user analytics.

BrownLiving, *grow.brownliving.in*

- React.js, JavaScript, Tailwind CSS, Redux
- Multi-vendor admin and seller dashboard with Redux state management, product listing APIs, and responsive layouts.

Appoctet, *www.appoctet.com*

- Next.js, JavaScript, Tailwind CSS, Framer Motion
- Company website with Framer Motion-driven section transitions, responsive layout, and fast page loads — built entirely in Next.js.
